Combining Open Content

Use the disk to choose the license you plan to publish with. Below you will see which licenses allow content to be combined to your creation.

Start from the other side!

creative commons

Compatible Licenses

Compilations

If you are adding material to your work as separate sections without changes, you are creating a compilation.

Derivatives

If you are editing and remixing material, you are creating a derivative work.

Open Content and Licenses

Creative Commons licenses allow you to share a your copyright protected works and give other people certain freedoms. Choose a license using the disk to see what it means in practice.

If you want to add content produced by others in your own work, see the other side.

creative commons

You can share and copy
You can use commercially
You can publish your modifications
You can share with different licenses
You can omit the author's name
Licenses recommended for research
Commonly recommended licenses for education

} Free Cultural Works have these freedoms.

Aalto University

TAIDE-YLIOPISTO

Open access to scholarly articles, research data, and educational materials produced at universities is a global trend. Finnish universities have signed the Berlin Declaration on Open Access. Many universities and research funders require that scholarly articles are published openly and recommend or demand that research data should be available as openly as possible.
